The Greedy Dog

One day, Dog walked through the woods to look for food. It must have been his lucky day because he found a big bone. Dog quickly grabbed it and said to himself, "I'm going to have the best dinner all to myself!"

Dog raced through the woods back towards his house. On his way, Little Dog stopped him to see if she could have a bite of his bone. Dog replied, "No way! I'm very hungry and need to eat this bone all by myself!" Little Dog walked away slowly with her head down.

Dog ran past many trees and jumped over several rocks. Soon Dog came to a bridge that crossed over a calm river. He stood on the bridge and looked down into the water. There he saw a dog with an even larger bone! He thought, "Now I'll have *two* bones for dinner!"

He tried to get the bone he saw in the water. When he opened his mouth to grab it, Dog's bone fell into the water. He watched his bone go down the river. Now Dog was all wet and had nothing to eat for dinner.
