

Memo From: Sr. Margaret Mancuso and Sr. Marlene Pape

Memo To: All Nazareth Elementary Parents and Guardians

Subject: Health COVID 19 Antigen Rapid Test Kits

Date: Wednesday, February 16, 2022

The Health Department has provided another supply of at-home COVID test kits to be distributed by schools. We will be sending one kit home with each student on Thursday, February 17, 2022. The kit will be accompanied by a fact sheet which describes the purpose of the kit and how it should be used. Please remove both the kit and fact sheet from your child's backpack when they come home on Thursday.

It is suggested that the kit be used for testing your student before gathering with people outside of your household over the winter break, in hopes of cutting down the spread of COVID before students return to class. It is NOT intended to replace more formal testing that might be done in school, at your pediatrician's office or at local pharmacies.

If you have any questions about the use of the kit, please call or email one of our school nurses at 458-3786 x3207 or [mpape@nazarethschools.org](mailto:mpape@nazarethschools.org).
